Visottica Industrie Spa Informative Report according to the provisions of Dodd-Frank Wall Street Reform and Consumer Protection Act, sec. 1502 (Conflict Minerals)

Dear Customer,

The Dodd-Frank Wall Street Reform and Consumer Protection Act was signed into US Federal Law on July 21, 2010. Section 1502 of the Act defines the reporting obligations for companies that make products for which the 3TG (Tantalum, Tin, Tungsten and Gold) are necessary to the functionality or production of that product. These obligations include, in particular, to assess their supply chains and report on the source of these minerals if they are sourced from the Democratic Republic of Congo (DRC) or any adjoining country.

Visottica Industrie Spa is fully aware of this law and has identified that some of the items produced and/or commercialized may contain Tin and/or gold.

For this reason, Visottica Industrie Spa has completed an inquiry towards its own suppliers of raw material in order to verify that its suppliers are "DRC Conflict free". The smelters used on the supply chain which source 3TG from covered countries have been approved to be compliant with the relevant Conflict-Free Smelter Program Assessment protocols; therefore, material of this origin has to be regarded as DRC conflict-free. This inquiry is reasonably conducted in good faith and deemed accurate.

Moreover, Visottica Industrie Spa assures that it will keep on monitoring its suppliers periodically in order to continue to ensure the customers that the components produced and/or commercialized are "DRC Conflict-free".

Best regards,

VISOTTICA INDUSTRIE Spa
Group Managing Director
Mr. Daniele Angeli
